AMENDMENT TO ROUND MOUNTIAN WATER AND SANITATION DISTRICT RULES AND REGULATIONS

SECTION 2, PARAGRAPH 2.2

Paragraph 2.2 currently states: "Leaks or breaks in the customer-owned portion of the service lines shall be repaired by the owner within 72 hours after the customer has been given notification of such condition by the District. If satisfactory progress toward repairing the leak has not been made by the time specified, the District shall have the authority to repair or have repaired the lines at the cost of the owner, and all such costs shall constitute a lien against the subject property until paid. The customer is financially responsible for all water and/or sewer usage caused by leaks or breaks in the customer-owned portion of the service lines."

If the customer can prove to the District that a service line leak was unintentional, the District, at its discretion, will bill the customer at the following amended rates:

Water – The minimum monthly service fee will be required, and all metered water usage will be billed at the lowest tier of water usage rates.

Wastewater – The minimum monthly service fee will be required, and sewer usage will be billed based upon a monthly average unless it is proven that water from the service line leak entered the District's collection system. In that case, the customer will be charged the full amount of metered usage.

The District will allow charges incurred from a service line failure to be paid over a maximum period of 6 months, interest free.
